

GAS TAX FACTS

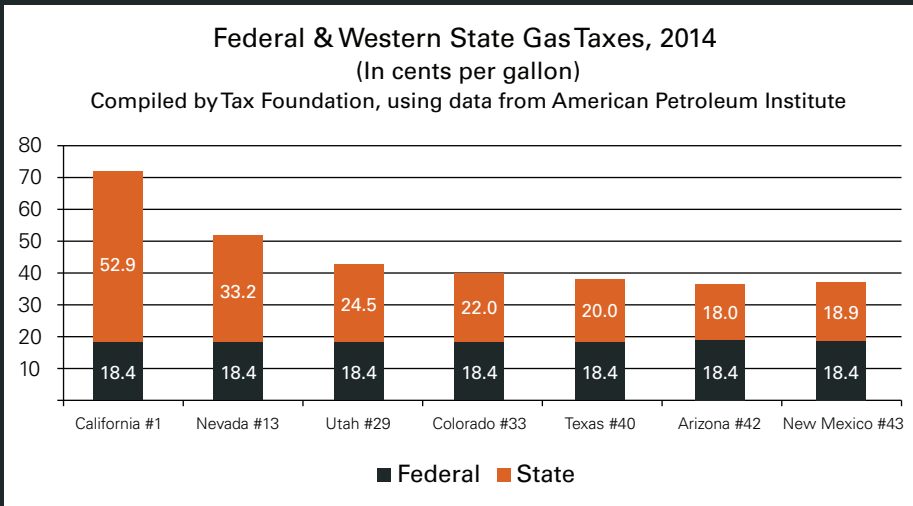

How much do I pay?

Our state gas tax is 18 cents per gallon. The average gas mileage (combined city and highway) for newer model vehicles is 25 miles per gallon. The average driver drives 1,250 miles per month. Therefore, an average Arizona driver of a newer model vehicle pays \$9 per month in state fuel taxes.

The last time Arizona's gas tax was increased was 1990. If it had been indexed to inflation, the gas tax would have risen from 18 cents per gallon in 1990 to 33 cents per gallon in 2014.
